### **Q1 2016 Investor Conference**

May 9<sup>th</sup>, 2016

### **IPR Notice**

All rights, titles and interests contained in this information, texts, images, figures, tables or other files herein, including, but not limited to, its ownership and the intellectual property rights, are reserved to eMemory. This information may contain privileged and confidential information. Some contents in this information can be found in Logic Non-Volatile Memory (The NVM solutions from eMemory), published in 2014. Any and all information provided herein shall not be disclosed, copied, distributed, reproduced or used in whole or in part without prior written permission of eMemory Technology Inc.

eMemory, NeoBit, NeoFlash, NeoEE, NeoMTP and NeoFuse are all trademarks and/or service marks of eMemory in Taiwan and/or in other countries.

### **Cautionary Statement**

This presentation contains forward-looking statements, which are subject to risk factors associated with semiconductor and intellectual property business. It is believed that the expectations reflected in these statements are reasonable. But they may be affected by a variety of variables, many of which are beyond our control. These variables could cause actual results or trends to differ materially which include, but are not limited to: wafer price fluctuation, actual demand, rapid technology change, delays or failures of customers' tape-outs into wafer production, our ability to negotiate, monitor and enforce agreements for the determination and payment of royalties, any bug or fault in our technology which leads to significant damage to our technology and reputation, actual or potential litigation, semiconductor industry cycle and general economic conditions. Except as required by law, eMemory undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

### Outline

### Business Model

- Review of Operations for Q1 2016
- Future Outlook
- Q & A

### **Business Model**

- Founded in 2000. First customer engaged in 2002. Achieved profitability in 2005 and IPO in 2011. The largest logic non-volatile memory IP company, 224 employees (157 R&D)\*.
- Since its IPO, the company initiated no new fund raising or bank debt, and has distributed in excess of 100% of earnings in cash dividends.
- Growth Indices: 1) No. of on-going technology platforms

2) No. of design licenses

3) Royalty

### **Quarterly Revenue Pattern**

• The quarterly royalty from most of foundries are collected at first month of each quarter and from some other foundries are collected at second month, and none at third month.

## Outline

- Business Model
- Review of Operations for Q1 2016
- Future Outlook
- Q & A

### **Q1 Revenue Breakdown**

#### **Unit: NTD thousands**

	Q1 2016	Q4 2015	QoQ	Q1 2015	YoY
Licensing	85,976	69,307	24.05%	64,056	34.22%
Royalty	233,870	231,571	0.99%	194,546	20.21%
Total	319,846	300,878	6.30%	258,602	23.68%

#### **Unit: Number of contracts**

		Q1 2016	Q4 2015	2015	2014
Technolog	y Licenses	13	11	28	21
Design	NRE	13	9	57	82
Licenses	Usage	69	104	349	363

### **Financial Income Statement**

(Unit: NTD thousands)	Q1 2016	Q4 2015	% change	Q1 2015	% change
Revenue	319,846	300,878	6.3%	258,602	23.7%
Gross Margin	100%	100%	-	100%	-
Operating Expenses	177,088	156,216	13.4%	128,976	37.3%
Operating Margin	44.6%	48.1%	-3.5ppts	50.1%	-5.5ppts
Net Income	166,012	128,090	29.6%	114,423	45.1%
Net Margin	51.9%	42.6%	+9.3ppts	44.2%	+7.7ppts
EPS (Unit: NTD)	2.19	1.69	29.6%	1.51	45.0%
ROE	34.9%	28.4%	+6.5ppts	24.8%	+10.1ppts

Note 1: The employee stock option was recognized under compensation cost in Q1 2016; therefore, the operating expenses increased by NT\$2.281 million while the operating margin was down 0.71ppts.

Note 2: Due to the disposal of financial assets in Q1 2016, the related cost from profit sharing to employees by non-operating income increased by NT\$7.389 million which affected the operating margin by 2.31%.

# Quarterly Design Licensing (New Tape Out)

- Total 82 NTO as of in Q1 2016( 406@2015,445@2014, 393@2013, 303@2012)

Note\*: As the applications of MCU at several foundries have gradually entered mass production, and the business model of the main foundry partner which provides green process has shifted to — eMemroy licenses IP cell to the foundry for it to provide direct design service to customers — as the result, the new tape out number of MCU has been affected, drop 25 as it compare to Q1 2015, but the royalty coming from IP cell usage continues to roll in.

In summary, even the new tape out number of MCU is lower than before; the corresponding wafer output and royalty continue to grow.

### Outline

- Business Model
- Review of Operations for Q1 2016
- Future Outlook
- Q & A

# **Outlook for Q1 and Beyond**

- License fees expected to grow due to the successful development of NeoFuse in advanced nodes, and MTP technology.
- PMIC continually expands to applications for wireless charger and fast charger related products.
- 55nm TDDI continues volume production. 40nm OLED DDI is under development at several major foundries.
- 28nm Set-top Box processor starts volume production.
  More customers tape out new products in Q2 of 2016.
- Fingerprint and CIS customers start volume production in Q2 of 2016.

# **Outlook for Q1 and Beyond**

- The qualification of 16nm FF+ was completed at end of March 2016 and 16nm FFC qualification started in Q2 of 2016.
- 10nm FF IP taped out in Q2.
- NeoPUF, new technology for security application is under development.
- Continuously tape outs on automotive applications.
